

VantageOne

High performance T1 lenses - Technical Data

At T4, T2.8 and T2, VantageOne lenses can give cinematographers the flawless look other modern lenses produce, but with superior image illumination. And they offer additional versatility at other stops. At T1.4, the results are a bit more forgiving, yet still extremely good, and at T1, VantageOne lenses lend the image a lovely, subtle creaminess, perfect for skin tones.

Lens	Focal Length Stop	metric		imperial		Angle of View* horizontal	Weight		Front Diameter	Overall Length	Min. Filter Size	Image Circle	Illumination Circle
